Announcement on the Implementation of Equity Distribution for the Third Quarter of 2023

The Company and all the members of the Board of Directors confirm that all the information contained in this announcement is true, accurate and complete and that there is no false and misleading statement or material omission in this announcement.

Notes:

After the implementation of equity distribution, the ratio of cash dividend per share and the ex-rights or ex-dividend reference price converted based on the total share capital of Hangzhou GreatStar Industrial Co., Ltd. (hereinafter referred to as the "Company") are as follows:

Given that shares held in the Company's special securities account for repurchased shares are not involved in the equity distribution for the third quarter of 2023, the total amount of cash dividends actually distributed by the Company = the total share capital actually involved in the distribution × the distribution ratio, that is, RMB 209,033,681.85 = 1,194,478,182 shares × RMB 0.175 per share; the cash dividend per share = the total amount of cash dividends ÷ the total share capital (including repurchased shares), that is, RMB 0.173832 per share = RMB 209,033,681.85 ÷ 1,202,501,992 shares (the result is accurate to six decimal places, and the last decimal place is directly reserved and unrounded).

To sum up, the ex-rights or ex-dividend price after the implementation of equity distribution for the third quarter of 2023 = the closing price on the date of record - RMB 0.173832 per share.
